

THE BELT RAILWAY COMPANY OF CHICAGO

MECHANICAL NOTICE

#2019-019

Effective December 15, 2019

To: All Concerned

Subject: BRC Parking Permit

Effective December 15, 2019, employees parking private vehicles on BRC property must ensure that each vehicle displays a BRC Parking Permit.

Permits are available and employees must ensure that they have a permit in place beginning at 0001 on December 15, 2019.

The BRC Safety Committee will be distributing permits beginning the week of November 11, 2019. In addition, departmental leaders will be organizing distribution to other employees within their department during the week of November 11, 2019.

To secure a permit, employees must complete a vehicle permit record, one record for each vehicle they plan to bring onto the property. Multiple permits will be issued to employees when necessary, if they bring more than one personal vehicle to work on a regular basis.

Mechanical Department personnel must return their parking permit forms to Assistant Superintendent Jeff Zoeteman to receive their permits.

Diesel Shop personnel must return their parking permit forms to Assistant Superintendent Pat McCarron to receive their permits.

Permits must be displayed on the inside rear-view mirror, in the direction specified to be in compliance with these instructions.

The BRC Police Department will maintain a list of vehicles and emergency contact information, that will be used solely to contact employees in the event with problems involving their vehicles.

Employees driving a vehicle onto company property without the required permit must notify the on-duty BRC Police Officer by phone at first opportunity.

H. Simon
Superintendent Mechanical
Belt Railway Company of Chicago
