February 3, 2021

To the BRC Transportation Team,

I wanted to take the time to address the importance of your continued commitment to the BRC's success.

The current year is off to a great start in terms of traffic volumes. After last weekend's snowstorm and the increased volumes here at Clearing Yard, I am asking each of you to put forth your very best effort to remain motivated to keeping operations fluid and moving forward.

Attendance will be crucial this weekend with colder temperatures and Superbowl Sunday. We'll have chili served on all three shifts both Saturday and Sunday and a raffle for those working Superbowl Sunday.

Being able to rely on employees to report to work every day helps to ensure that our high business standards are maintained.

A strong work ethic contributes to all the moving parts of the BRC and creates a successful work environment.

Sincerely,

Terry Hartwig
Terminal Superintendent
